YMCA Partnerships and Assessments:

The YMCA participates with many partners. For example, we receive FREE books for you to build a home library, visits from the nature center, and many other exciting local businesses. We also receive many FREE resources that can truly help identify helpful tips for you and your family. By signing off on the below permissions you are allowing your child to participate in our activities.

In partnership with Core Health Partners, free developmental occupational, speech and physical therapy screenings will be conducted at the YMCA. The developmental screening will examine the areas of fine motor, visual motor, self-help skills, sensory, attention, speech/language and gross motor skills. The screening is a quick general measure of your child’s development and will provide an overview of your child’s strengths and needs. The screenings can assist parents, caregivers and teachers to know how to best support your child’s school readiness. Early detection and intervention can help your child develop to their full potential and future success in school. If the screening indicates any areas where your child has performed below his/her current age level, you will then have the option to follow up with your pediatrician for a referral for a more in-depth evaluation. The evaluation and therapy treatments are completed on-site at the YMCA.
